

I understand that the FCC is considering the proposal of a national telemarketing law.

We in Indiana currently enjoy what has been an extremely successful telemarketing law, which I understane that almost half of the families in Indiana have chosen.

PLEASE DON'T SRPERCEDE OR WEAKEN THIS INDIANA TELEMARKETING LAW THAT REALLY WORKS.

Since the Indiana telemarketing law has been in effect, unwelcome and bothersome "sales" calls have all but dissapeared and we in our home have been able to enjoy quiet evenings at home.

Thank you very much,
Michael T. Mohler
